

APPG *for* CRAFT

Agenda for Meeting of the All Party Parliamentary Group for Craft Tuesday, 16th October, 4–6pm, Room A 1PS

'When it first appeared in Old English, the word craft signified an indefinable sense of knowledge, wisdom, and resourcefulness. Rediscovering craft will connect us with our human past, our sense of place, and our remarkable capacity to survive in the harshest of landscapes. Craft helps us more fully appreciate human ingenuity and the passing on of traditions from generation to generation.'
Alex Langlands, Cræft
