

APPG *for* CRAFT

Agenda for the Zoom Meeting of the All-Party Parliamentary Group for Craft

Tuesday, 3rd November 2020, 2–3.30pm on Zoom

'If you're a self-employed maker then everything is down to you. It's not just knowing your stuff – craft skills and techniques – well enough to produce goods that sell, but writing a business plan (and keeping to it), maintaining a website, dealing with orders and customers and when things go wrong, ordering materials and tools, keeping your tools and machinery up to scratch, banking and arranging loans and so much more.'
